1984 Article Index

Systems Management Principles

DP cost allocation: A management perspective (Jan)
Michael J. Hoffman
Computer system acquisition planning (May)
Dr. Michael Vanecek
Certification of systems analysts (May)
So you want to be a consultant (June)
Stephen A. Dimino
Certification: Issues and answers (July)
Bill Roe
What makes a manager unique? (Aug)
Richard R. Riker
Productivity brief (Nov)
Dr. Frank Greenwood and Mary Greenwood
Litigation Support Activities (Nov)
Robert Gevirtzman
Technology trends in info processing industry (Dec)
Charles Exley, Jr.

Managing the Systems Effort

Tradeoffs in selecting an executive steering committee (Jan)
Dr. William Doll and Dr. Mesbah V. Ahmed
Disaster to success in difficult and costly lessons (Jan)
Jed V. Simms
Impact of financial analysis methods on project selection (Feb)
Dr. Tor Guimaraes and Dr. William E. Paxton
Budgeting for R & D projects — Part 1 (Feb, Mar)
Dr. Harold Kerzner and David Hostelley
Principles of office automation (Feb)
Frank Greenwood and Mary M. Greenwood
Communications framework for systems design (Mar)
Merle P. Martin and William L. Fuerst
Structured approasch to solving systems problems (Mar)
Barry Nirmal and Vi Sadler
Decision support system for human resource mgt. (Apr)
Dr. K.H. Chan
User profiles for system planning and development (Apr)
Leonard E. Mann
The return of the business system analyst (Apr)
Marvin R. Christenson
Should the office be automated? (Apr)
C.J. Coumou
User involvement — Does it exist, is it enough? (May)
Dr. Michael Newman
Crisis project programming (May)
Dr. J. Wayne Spence, Dr. Steve Guynes and Dr. Thomas C. Richards
Controlling the microcomputer environment (May)
Beverly R. Kahn and Linda R. Garceau
Planning audit coverage (May)
N. Kirk Gresham
System security requires technical and user controls (June)
Jerome P. Thode
Audit concerns in an on-line distributed computer network (June)
Charles L. Holley and Keith Reynolds
The protection of intellectual property (July)
Thomas R. Captain
Research-oriented perspective on information mgt. (July)
Dr. Eileen Trauth
Practical DP controls for the small business (Aug)
Mary V. Campbell and M. Margaret Cermak
Data security packages — How safe are they? (Aug)
Lawrence R. Ness
Software development dilemma: A case of perceptual bias (Aug)
J. Wayne Spence
Office automation — Five years old and growing (Sept)
Kenneth E. Holmes
Computer systems and fraud prevention (Sept)
Dr. Glenn T. Wilson
Data base security, integrity and privacy in a large public utility (Oct)
Dr. Ken S. Brathwaite
The physical side of a management system (Oct)
Leslie H. Matthies
Managing source code (Oct)
M.C. Er
It's not what I expected! (Nov)
James R. Wilson
High tech product management (Dec)
Daniel Keegan and Robert Eiler

Selection and Training of Systems Personnel

Performance standards, goals and objectives for DP personnel (Jan)
Robert A. Zawacki
Providing norms on ethics to entering employees (Feb)
J. Daniel Couger
New tools and techniques to make data base professionals more productive (June)
Richard K. Davis
How to recruit successfully (Dec)
Thomas Hutton

Information Collection, Storage, Retrieval

What do you leave behind? (Jan)
Randall R. Kline
A forms primer (Feb)
Gibbs Myers and Leslie H. Mathies
The place of forms in the organization (Mar)
Gibbs Myers and Les Matthies
Forms definition and purposes (Apr)
Gibbs Myers and Leslie H. Matthies
New or revised forms (May)
Gibbs Myers and Les Matthies
Marking copy for the printer (June)
Gibbs Myers and Leslie H. Matthies
Principles of program documentation (July)
M.C. Er
Pen and pencil forms (July)
Gibbs Myers and Leslie H. Matthies
Serial numbers on forms (Aug)
Gibbs Myers and Leslie H. Matthies
Self instruction of forms (Sept)
Gibbs Myers and Leslie H. Matthies
Imprinting on forms (Oct)
Gibbs Myers and Leslie H. Matthies
Documentation of business procedures — A new technique for an old problem (Oct)
Robert Buyers

Robert Buyers

Objective for system planning (Dec)
William Doll
Improving productivity with just-in-time system (Dec)
G. H. Manoochehri

Forms order quantities (Nov)
Gibbs Myers and Leslie H. Matthies
Esthetics in forms design (Dec)
Gibbs Myers and Leslie H. Matthies

DP Hardware and Software Applications

What is a data center? (Jan)
Myles E. Walsh
Me? Use a terminal? In my office? You've got to be kidding!
Anderson H. Vaughan
Disaster prevention and recovery for microcomputers (Mar)
Ralph L. Kliem
Maintaining control of microcomputer installations (Mar)
Glenn Potts
IBM 8100: Where does it fit in? (Mar)
Craig S. Harger
Countering unauthorized systems accesses (Apr)
Charles Cresson Wood
Computer system acquisition planning (May)
Dr. Michael Vanecek
Controlling the microcomputer environment (May)
Beverly R. Kahn and Linda R. Garceau
When is DP ready for a DP/WP merger? (June)
Charles E. Paddock
Audit concerns in an on-line distributed computer network (June)
Charles L. Holley and Keith Reynolds
Software complexity metrics (July)
Warren A. Harrison
Distributed processing: Implications and applications for business (July)
Avi Rushinek and Sara Rushinek

Principles of program documentation (July)
M.C. Er
Practical DP controls for the small business (Aug)
Mary V. Campbell and M. Margaret Cermak
Five of the fifth (Aug)
J. E. Downs
Identifying and minimizing the risks in software selection (Aug)
Barry Shore
Computer systems and fraud prevention (Sept)
Dr. Glenn T. Wilson
Telecommunication — A reconciler of incompatibilities (Sept)
Myles E. Walsh
Controlling a large-volume computer printer environment (Oct)
C. Warren Axelrod
Data base — The technical heart of an information center (Nov)
Dr. Gus Kalogeras
On-line security strategies for inter-connected computer systems (Nov)
Dr. IPS Kochar
Will the real IBM personal computer please stand up! (Nov)
Myles E. Walsh
Increasing throughput of magnetic tape files (Dec)
Dr. Earl Chrysler
Warranties and disclaimers in computer contracts (Dec)
Charles R. Franz and E. Ned Flynn

Management Science

Using the resistant line in systems studies (Feb)
William Leigh
Financial modeling within distributed systems (Mar)
Dr. Joseph W. Wilkinson
Dynamic decision support teams (June)
Kathy Brittain White
Strategic models and simulations: An emerging decision-making aid (June)
Dr. Peter M. Ginter and Dr. Andrew C. Rucks
Current trends in the use of corporate planning models (Sept)
Dr. Jae K. Shim and Randy McGlade
Prediction of direct marketing campaign results (Nov)
J. W. Baker

Management Information Systems

Strategies for MIS project selection (Feb)
N. Paule Melone and T.J. Wharton
Automated insurance billing system (Apr)
Dr. Reuven R. Levary and Mark Keersemaker
Hospital information system design (May)
Dr. Richard Chen
Distributed processing: Implications and applications for business (July)
Avi Rushinek and Sara Rushinek
A strategy for a successful MIS/DIS implementation (Aug)
Dr. Jugoslav S. Multinovich and Dr. Vladimir Vlahovich
MIS for state and local governments (Nov)
Dr. Jesse W. Hughes

Graphic Presentations & Reports

Technical writing for computer software (Feb)
Polly Perryman
A practical approach for standardizing user documents (July)
Elizabeth Berry
Writing technical procedures (Oct)
Ralph L. Kleim

Case Histories

Disaster to success in difficult and costly lessons (Jan)
Jed V. Simms
Automated insurance billing system (Apr)
Dr. Reuven R. Levary and Mark Keersemaker
Mundane, plebian, unexciting — but it saves $10 million (Apr)
Richard Littlehailes
Planning audit coverage (May)
N. Kirk Gresham
Hospital information system design (May)
Dr. Richard Chen
Performance monitoring information system for a poultry farm (Sept)
Dr. Kehlil Ben Afia
Data base security, integrity and privacy in a large public utility (Oct)
Dr. Ken S. Brathwaite
